

MAOT SPRING MEETING A GREAT SUCCESS!

On April 29th, the Maryland Association of Orthopaedic Technologists (MAOT) held their spring meeting “Let The Games Begin”, a day long course devoted to Sports Medicine. The NBCOT was honored to be asked by MAOT to attend and speak on the OTC® Certification.

Dr. Matz and Pett Allen, OTC

The Conference began with opening remarks by MAOT President Pett Allen, OTC and a prayer that was offered by Vice-President Ricco Garnes, OTC. The first speaker was Dr. Samuel Matz who gave an excellent talk on New Advances in Arthroscopic Surgery. Scott Silverstein, MD gave a very informative talk on LisFranc fracture dislocations; the identification of this injury was fully covered. Paul Welliver, ATC gave a funny and informative lecture on the “Downed Athlete”.

Several prominent Physicians covered 9 hours of various injury specific topics and the learning experience was invaluable for all in attendance.

Throughout the conference, the importance of Certification was stressed by MAOT.

In closing, the MAOT Spring Meeting was a great success and the MAOT members and Officers should be proud of the success of their meeting and the education that was delivered.
